IC Imaging Control Fehler 'isCompatible': undeclared identifier

S.Geißler - 2021-08-11 - Programming

If a new IC Imaging Control C++ project does not compile with error C2065 'isCompatible': undeclared identifier in c:\documents\ic imaging control 3.4\classlib\include\framefilterimpl.h 268 , then the "Conformance mode" in C++ Language must be set to No in the project settings:
